DeLever helped me greatly in achieving my Chartership. They know what is required to become a Chartered Surveyor and the structured planning and advice they provided me with was needed to understand all aspects of the RICS. Thanks to DeLever for their continued support throughout the process. TC

I highly recommend DeLever's services based on my personal experience of successfully passing the APC. I regularly attended the weekly Roadshows sessions led by Jon, and found the quality and depth of the CPD to be truly invaluable. ACP
